

A Fluke Company

Oven Tracker[®] XL2 Thermocouple Accessories

A comprehensive range to suit your exact application needs

MicroMag Thermocouple Mount

Designed to secure exposed junction thermocouples to ferrous substrate for air measurement, or in combination with patch or tape for secure monitoring of substrates in IR processes. Compatible with light and heavy-duty PTFE patch, glass fiber and mineral-insulated exposed junction thermocouples.

PA0980

Pack of 1 (thermocouple not included)

Thermocouple ID Tags

Aluminum ID tags fitted to the sensor end of the thermocouples cable allow clear identification of the thermocouple number or channel, even when the barrier is closed.

PA2051

Pack of 8, numbered 1 to 8

Hanging Storage Strap

Steel strap hangs from the barrier, so thermocouples can clamp on securely for easy and safe transport. Also provides tidy storage facility for clamp or magnetic thermocouples.

PA2052

1 storage strap holds up to 8 thermocouples

Thermocouple Cable Tidy

Keep cable routing even, prevent kinking and tangling. Easy thermocouple identification. Secures up to 8 cables.

PA2050

Pack of 1

High Temperature Adhesive Tape

Used to secure exposed junction thermocouples. Supply restricted in certain geographical locations. Contact DataPac for clarification.

CS1030

33m (36 yards) long reel. Maximum temperature 400°C (752°F).
(Available in the United States of America ONLY)
